

A KEE SAFETY PRODUCT

SAFE RAPID ACCESS

## Ladder Safety Accessories

- QUICK AND SIMPLE TO RETRO FIT TO ANY LADDER
- RUBBER COVERING PREVENTS DAMAGE TO FACE OF BUILDING
- HEAVY DUTY RUBBER FEET PROVIDE HIGH LEVELS OF GRIP
- EASILY TRANSPORTABLE

# Ladder Safety Accessories

Our range of ladder accessories ensures that your existing ladders are used in compliance with OSHA, ANSI and CSI standards.

Not only does using the **Anchor-Fix** device greatly help top stability by widening the base of the ladder, it also enables the ladder to be set up on a slope of up to 15° quickly and easily levelling the base to the optimum position.

The **Ladder-Spurs** prevent outward slip by increasing the base of your ladder and significantly reduces the chance of a sideways slip at the top. Secured easily and quickly with heavy duty ratchet straps, the independent spurs simply wrap around the ladder side rails. They can be attached at any height position to allow for sloping ground, and eliminate the need for someone to stabilize the base.

Finally, the **Ladder Stand-Off** incorporates a large 'V' which allows the ladder to span around down pipes or rest on corners of buildings. The top of the ladder is kept 1ft off the wall making it using when working under eaves.

Easy attachment of **Ladder-Spurs**

## Technical Specification

### ANCHOR-FIX

Maximum slope angle	15°
Maximum stringer size	2.75in
Maximum ladder width	1.5ft
Weight	11lbs
Base width	3.2ft
Clearance	3.5in
Material	Aluminium and Steel

### LADDER-SPURS

Width at base	3in
Maximum stringer size	4.7in x 1.4in
Weight	11lbs
Reach	1.6ft
Material	Steel

### STAND-OFF

Width	3.25ft
Stand-Off distance	1ft
Maximum run diameter	1.6in
Weight	9lbs
Material	Aluminium

**ANCHOR-FIX**

**LADDER-SPURS**

**STAND-OFF**
