

PROVIDING SAFETY SOLUTIONS WORLDWIDE

Partnering with a Provider of Rooftop Fall Protection Systems

- THERE IS A LEGAL REQUIREMENT TO ENSURE A SAFE ENVIRONMENT FOR PEOPLE WORKING AT HEIGHTS
- WITHOUT A CORRECTLY TESTED AND INSTALLED SYSTEM YOU CAN BE HELD PERSONALLY RESPONSIBLE FOR THE SAFETY OF YOUR PERSONNEL WORKING AT YOUR SITE

solutions for Fall Protection

modular, free standing roof edge railing system that does not penetrate the roof membrane

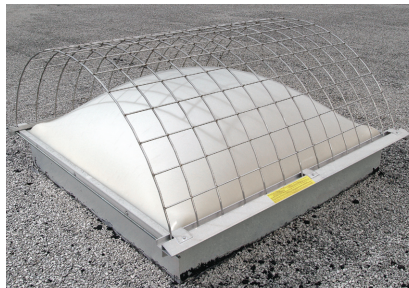

- Independently tested and exceeds all North American Safety Requirements
- Corrosion resistant
- Supplied in pre-fabricated modules
- No drilling, anchoring, or penetration of the roof membrane
- Safe, reliable, and versatile

portable, temporary, free-standing railing system that is fully OSHA compliant

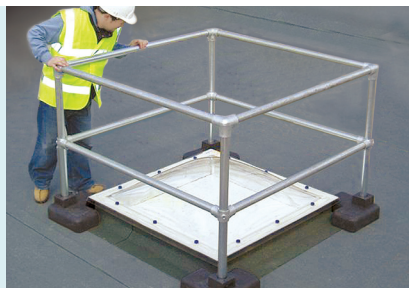

- Uprights secured into solid bases with rubber pads on the underside
- No need for connections to the rooftop
- Portable roof edge fall protection
- Meets all OSHA standards for permanent railings

screens for curb style, standing seam, and rib/corrugated metal roof skylights

- Custom sizes available to fit non-standard applications
- Available in either galvanized or stainless steel

skylight guardrail system, fits skylights, roof-lights, and dome-lights with curbs

- Free standing guardrails to minimize the risk of falls through glazed areas
- Standard components allow rapid assembly
- Free standing PVC feet eliminate damage to the roof membrane
- Complies with relevant roof top safety laws
- Corrosion resistant

safety barrier system for safe passage through hatches in roofs or floors

- Allows safe use of roof access hatches
- Exceeds minimum strength requirements for railings
- OSHA Compliant
- Integrates with existing openings and ladderways
- Rails serve as grab bars for easy roof access
